

CHRIS WILLIAMS

WEB DESIGNER / DEVELOPER / APP DESIGNER / DEVELOPER

RESUME OBJECTIVE

Talented and experienced front-end developer with 5+ years' experience designing, developing, and maintaining many different websites and mobile applications. Eye for quality design and attention for detail. Strong leader but also works well with others. Looking to join a company that puts out high quality work and will help me grow.

EXPERIENCE

Web Developer

Digisphere Marketing / December 2021 - Present

- Responsible for entire development process from building to deployment of numerous websites
- Update and maintain client websites on various platforms / CMS
- Train co-workers on new software/tools
- Optimize numerous websites for 90+ page speed scores

Owner / Developer

Poker Masterminds LLC / September 2019 - Present

- Designed and developed website
- Maintain and update the website with new content
- Developed two mobile apps that display strategical information to users. Apps were built natively for both iOS and Android platforms originally and have been rebuilt with Flutter / Dart
- Design and run e-mail marketing campaigns

Web Designer / Developer

Freelance / June 2018 - Present

- Worked with different small businesses, designing, and developing websites
- Increased traffic and page ranking by improving website structure and implementing SEO
- Host clients' websites on AWS
- Keep client's website/server backed up, updated, and secure
